Experience

Zarlengo Services Auburn, WA

2021 – 2022

Implement website contracts and develop custom front end and back end software for clients.

Software Engineer

- Developed a Node.js based back-end, and React.js front-end, full stack web application with test driven design
- Utilized Jest.js for validation testing
- Worked in an agile team utilizing JIRA to determine highest priority feature requests
- Worked with third party design team to integrate design concepts

Thirteen Chefs Redmond, WA

2020 – 2021

Designs and retails sustainable kitchen and houseware products for food service professionals and home chefs. Sourced products from overseas and sold through Amazon.com.

Logistics Coordinator

- Maintained adequate stock levels at local warehouse as well as Amazon.com warehouses through analyzing sales history via SQL and decreasing the amount of out of stock items by 10%
- Monitored product shipments into Amazon with python script that reduced task time by 75%, from 2 hours to 0.5 hours
- Improved product quality by quickly identifying high returned items and identifying why they had been returned

Projects

Resilient Forestry

- Developed a client facing and employee website. Single access and centralized location to track time, and equipment
- PostgreSQL, Express, JavaScript, React, HTML/CSS, Node.js, Express (PERN)

Listably | github.com/JosephCordell/ListablyReact | listably.herokuapp.com

- A media consumption website for users to search for media along with streaming details utilizing TheMovieDB API
- Users can create an account, choose their favorite shows and movies that is saved onto a MySQL Server and access the information from any device
- React, Node.js, Express, MySQL, REST API, JWT Authentication, HTML, CSS, Javascript

Technical Skills

Languages: React, JavaScript ES6, Python, Node.js, HTML, CSS, SQL, NoSQL, PostgreSQL

Applications: GitHub, MongoDB, MySQL

Tools: Express, React, Node, Heroku, Handlebars, jQuery, Bootstrap
